

Role: Sr. PHP/PHP Developer

Experience: 2+ yrs

Location: Mysore

Suitable for:

Engineer/ Computer science graduates who loves technology and likes to learn all the time. The candidate should have **at least 2+ years' experience** in a web based company and have **working knowledge of PHP/MySQL**.

Skill set which you MUST have:

1. 2+ years of experience in, Linux, Apache, MySQL & PHP (LAMP)
2. Strong OOPs concepts
3. Experience in MVC architecture (Preferably Codeigniter)

Added advantage if you have following skills:

- Knowledge in Learning Management Systems (Moodle), Version control system (GIT)
- Database design is an added advantage
- Working on payment gateways, SMS gateways, good knowledge on WSDL, experience in single sign on
- Hands on experience in jQuery, Ajax, React.js, Node.js

Our business is entirely technology driven – with large e-commerce, online learning and learner management components. We will be working on different delivery formats, including mobile apps.

We are looking for a bright, committed IT team member, who wish to take early responsibility and grow fast. Ideal for those who seek an exciting startup environment. It's your chance to participate in growing a startup to a respected organization. The beautiful environs of Mysore, where we're located, will give you a great quality of life, and a savings potential of at least 20% more than in a metro.

Our young, enthusiastic team of 50+ speaks 12 languages – we're from all over India.

Join us. It's fun!

Career Growth & Money:

Starting from day one, your voice will be heard, your plans implemented, and your initiatives will drive the company's growth. As the company grows, so will your responsibilities and your team size. You can see yourself moving from Senior PHP Developer to Tech Lead to Technology Architect.

We pay well. Apart from a good cash salary, you can earn performance incentives. But don't let this be your primary driver. Join us for the responsibility, the fun and the sheer amazing achievement of creating a great company from scratch.

Company Description:

We are Finitatives Learning India Pvt. Ltd. (FLIP/ www.learnwithflip.com). A senior IIM alumni venture, we're a young, company: offering India's largest range of e-learning and certifications in Banking & Financial Services (BFS). We are doing well, and growing fast. We launched in Dec 2009. Since then, we've got over 60000+ users.

The logo for FLIP (Finitatives Learning India Pvt. Ltd.) is displayed in a light blue, sans-serif font. The letters are large and spaced out. Behind the text, there are several large, abstract, overlapping shapes in shades of light blue and light green, creating a dynamic, modern background for the logo.
